#### **Mark Scheme for Autumn 2021**

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

## 1. Annotations

Annotation	Meaning
✓ and ✗	for correct and incorrect responses
<b>BOD</b>	benefit of doubt
<b>TV</b>	vague
<b>NUT</b>	no use of text/context/application
<b>REP</b>	repetition
<b>NAQ</b>	not answering question
<b>REP</b>	repeat
<b>K</b>	knowledge
<b>U</b>	understanding
<b>APP</b>	application of knowledge/understanding
<b>AN</b>	analysis
<b>EVAL</b>	evaluation
<b>BP</b>	blank page

Highlighting is also available to highlight any particular points on the script.

**ARA** – Any Reasonable Answer

Where ARA is indicated within the Guidance column for any item on this mark scheme, examiners must accept any reasonable answer that in their professional opinion is as worthy of merit as those indicated on the final mark scheme. However, examiners should liaise with their Team Leaders/Principal Examiner wherever there remains any doubt as to whether or not a response (or part-response) should be awarded.

	<ul style="list-style-type: none"> <li>• It may result in PP changing its pie range (e.g. vegan pies) using more environmentally friendly suppliers</li> <li>• The business may need to change its promotion, for example it may need to create an advertising campaign that stresses a more environmentally approach to choosing suppliers of its raw materials</li> <li>• Pricing may have to change in response to higher supplier costs (suppliers charging more as they become more environmentally friendly)/distribution costs higher (electric vans)</li> <li>• Packaging can be replaced with recyclable materials or used to show the environmentally friendly nature of the product</li> </ul> <p><b>Evaluation may include:</b></p> <ul style="list-style-type: none"> <li>• Whether environmental considerations will have major implications for Pukka Pie’s marketing mix when compared to other factors such as ethical considerations, economic climate considerations.</li> <li>• Whether the impact is larger for one element than another</li> <li>• The relative importance of environmental considerations</li> <li>• The use of contextual evidence to support any judgement</li> </ul> <p><b>Exemplar response</b>  Environmental considerations are about the natural world (<b>K</b>) such as increased use of recycled products (<b>U</b>). If Pukka Pies is taking its environmental responsibilities seriously then it may have to increase prices (<b>APP</b>) as it may use more expensive suppliers (<b>AN</b>). Pukka Pies may also ensure the distribution (<b>APP</b>) of its pies have less of a carbon footprint by using electric transport (<b>AN</b>).</p> <p>Overall PP being more environmentally friendly may have a big impact (<b>EVAL</b>) as costs increase. This may particularly lead to higher prices to cover these costs (<b>EVAL</b>) although this may be offset by the lower costs now none of Pukka Pies’ waste goes to landfill (<b>EVAL</b>).</p> <p style="text-align: right;"><b>ARA</b></p>
